REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Newbury District:

Following are the principal statistics of the district for the year 1931-32:

No. visits of citizens	23	14	26	63	132

* Seven pupils enrolled who had previously registered in another school in the district. These are not included in the eleven shown in the table.

From the above table it will be seen that

1. No sessions of school were lost.
2. The number of pupils registered, and the average membership have increased slightly.

3. There is considerable drop in the percentage of attendance, partly caused by illness of pupils. Parents can assist in getting a better percentage by regularly keeping their children in school when there is no illness. Only a day now and then increases the total absence.

4. The lower amount of tardiness is gratifying. Nearly all the tardiness was at Baker Hill.

* Seven pupils enrolled who had previously registered in another school in the district. These are not included in the eleven shown in the table.

The number of pupils enrolled in the public schools of the district was 61. The number of pupils residing in the district, but attending public schools outside the district was 15, distributed as follows: Newport high, 6; Sunapee high, 2; Sunapee elementary, 1; Warner high, 6. This makes a total of 76 pupils residing in the district and attending public schools, an increase of 14 over last year.

ROLL OF PERFECT ATTENDANCE

For Full Year—Rolland Hall; Irene Muzzey; Arthur Leach.

For three 9-Week Periods—Irene Croteau; Janet Muzzey; Sylvia Willey.

For two 9-Week Periods—Alice Croteau; John Croteau; Jean Plumeridge; Walter Croteau; William Bly; Roger Colby; Madeline Farmer; Frederick Loughery; Merle Rich; Richard Perkins; William Burton; Celia Burton; Raymond Currier; Stanley Currier; Walter Leach.

The health inspection was made by Mrs. Florence Chadburn, R. N., and was reported as follows: Pupils examined, 45; underweight, 10; defective vision, 2; defective teeth, 31; diseased tonsils, 4; defective breathing, 1; mumps during year, 24; vaccinated, 43; unvaccinated 2.

This report shows that 68.8% of the pupils have defective teeth. A dental clinic would be very beneficial in this district.

Two pupils at the Baker Hill school completed the work of the eighth grade and were graduated in June. There were no graduates from the other schools of the district.

As a whole the work of the schools for the year was very satisfactory. We owe this desirable outcome to the loyal co-operation of the board, parents, and teachers.

Respectfully submitted,

JOHN A. SINCLAIR,

Superintendent of Schools.
